EXPERIENCE

NiCE • Global IT Support & Services Manager

Jan 2023 – Mar 2026

- Led a 67-person global organization (three support tiers plus delivery) serving 11,000 employees and 12,000 endpoints across North America, Latin America, Europe, Israel, India, Japan, Singapore, and South Africa; owned an \$8M annual budget and reported to the CIO on strategy.
- Designed, shipped, and owned production AI in the core of support: a Tier-0 agent for the entire workforce that resolves from approved knowledge and opens and escalates tickets itself, removing ~35% of frontline cost with headcount held flat.
- Deployed continuous AI compliance agents across ISO 27001, SOC 2, and GDPR, freeing ~3 FTEs of manual audit effort and widening coverage.
- Delivered 8 acquisition integrations (50-400 people each) via a repeatable playbook, 2-3 months each with zero operational downtime.
- Re-engineered endpoint provisioning to Intune and Windows Autopilot (4-5 hours to under 2, anywhere), reclaiming ~9,000 engineering hours per year; built the enterprise macOS stack from scratch; brought ~2,000 contractor endpoints under governance.
- Launched the company's first global Live Chat under CIO sponsorship, lifting first-contact resolution from 65% to 80%.

Sapiens • Global IT Support Manager

Jan 2021 – Jan 2023

- Ran global IT support for ~5,000 employees and ~7,000 endpoints across Israel, the US, UK, and India; ~30 engineers handling ~3,000 tickets a month at SLA.
- Completed a long-stalled German-acquisition IT integration (~200 employees) and standardized global support and endpoint operations, including migration toward Microsoft Intune.

Western Digital • IT Service Desk Team Lead

Jan 2018 – Jan 2021

- Promoted into team leadership for a multi-site multinational service desk; built the India support team end to end (hiring, onboarding, training) and introduced Mac support; owned global escalations and VIP service. Performance-recognized.

Israel Defense Forces • Infantry Platoon Commander

Officer

- Led ~40 soldiers through training and operations; graduated Officer Course with outstanding performance; discharged as Lieutenant.

PRODUCTION AI BUILT

Enterprise support agent - Tier-0 for 11,000, wired to knowledge, incident, request, escalation.

Compliance agents - continuous ISO 27001 / SOC 2 / GDPR audit; ~3 FTEs freed.

Sales enablement agent - SKU assembly across hundreds of products.

Solo builds - multi-agent content platform, multi-channel WhatsApp/Telegram assistants, this grounded interview agent (Node.js, TypeScript, Claude API).

CAPABILITIES

IT Operations & ITSM - Global IT Ops, ITIL, Incident/Problem/Change, ServiceNow, CMDB, SLA/KPI, M&A integration, vendor and budget ownership

Endpoint & Workplace - Intune, Autopilot, SCCM, Jamf, BigFix, Windows, macOS, Linux, Defender

Cloud, Identity & Security - Azure, M365, Entra ID, Okta, CyberArk, CrowdStrike, VMware, Citrix

AI & Automation - OpenAI, Claude, multi-agent orchestration, RAG, MCP, n8n, Make, API integrations

Engineering - Python, Node.js, TypeScript, React, Docker, PostgreSQL, REST, webhooks

Education - No academic degree; technical coursework (Java, JavaScript, CSS). Career built through enterprise practice, leadership, and continuous hands-on building.
